

WELCOME

For 48 years now, manufacturing and design has been the passion that has inspired us all at Elstead Lighting. Our origins date back to 1686, but our vision is definitely 2020.

This new catalogue presents more than 2500 lighting fittings, all of which we believe are worthy of carrying the Elstead name.

The 2015 collection includes more than 500 new models, designed to innovate, inspire and excite. From exceptional outdoor lanterns, to stunning chandeliers and pendants, our love of bringing great lighting to the showrooms and homes of our clients, is what drives us every day. Our constant focus on quality and functionality is ever present too as we strive to push the bar of reliable quality and ease of installation higher and higher.

As an operation we now sell our products to a truly worldwide audience, lighting beautiful homes, hotel bedrooms and public areas, coffee bars and restaurants in more than 60 countries. We now have our own sales distribution operations in 3 countries, managing more than 17,000 square metres, (185,000 square feet) of warehousing and production space and a team of more than 100 committed staff.

Today we see more opportunity for manufacturing, more desire for design and more passion for innovation. This is why we are so passionate about this business and why we are so inspired to share it with you.

DESIGN, INNOVATION, INSPIRATION...

We share the passion and love of great design with all of our customers, and wherever we are in the world, we find the same reaction and enthusiasm to great design. Often from historical influence, vintage and retro, regularly with style and flair, and always with attention to detail and quality, it is with these elements that products are crafted and created. Whether it is from an Elizabethan English country manor, a Venetian terraced villa or a 1920's Parisian town house, from original fittings, architectural features to sculptures and metalwork, we find influence from all around us.

Based in Charleston, South Carolina, Quoizel was founded in 1930 and has since built a reputation for its diverse and unique product range, often engaging well known freelance designers to help with bringing fresh styles to the marketplace. This catalogue sees the introduction of the Quoizel Tiffany Collectibles range, inspired by the great originator Louis Comfort Tiffany.

Established 1955 in New York; Feiss are renowned for their classic styling and quality feel, great original designs and as part of a group of lighting companies which are now one of the biggest in the US market, great R & D resources for future product developments.

Hailing from Baton Rouge, New Orleans; Flambeau offers one of the most unique and distinctive lighting collections in the marketplace. Working with specialist designers who model up their own original creations using distress finishes of gold and silver leaf to create 21st century antiques. The Flambeau Collection brings to the market a style and look unrivalled in today's lighting industry.

... AND PARTNERSHIP

We share this passion for design with our American partners who also put the same heart and soul to create and bring light fittings to excite and inspire. They too employ great energy and commitment to bring truly original design to their customers, and Elstead Lighting is their strategic partner in manufacturing and distributing many of these products to our 220v – 240v clientele.

Founded in 1922 and based in Cleveland, Ohio; Hinkley are on their 4th generation family ownership. The Hinkley collection has both a classic and contemporary feel to the product ranges, many represent what is classed as "transitional" styling, and are always made to the highest quality and design.

Cleveland, Ohio based and founded in 1938, L D Kichler & Co are a family run company held in high regard by their customers for the diversity of design and breadth of range, which includes some truly striking and often substantial pieces.

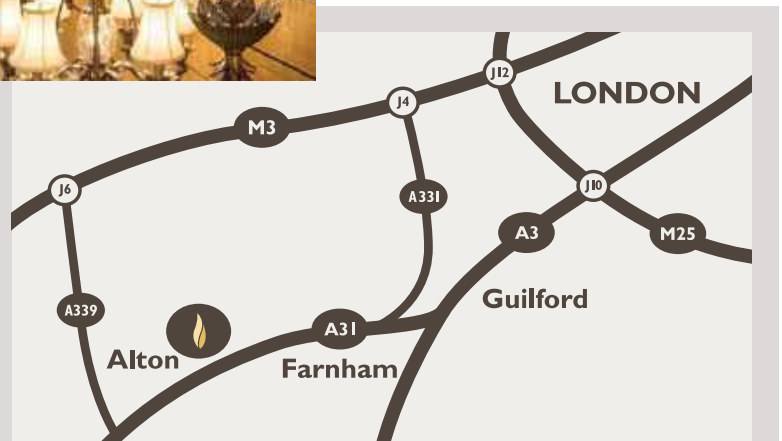

A beautiful collection of classical and art deco table lamps and floor lamps. Manufactured in New Jersey, these quality products are zinc cast bases with beautiful finishes and handmade shades all made in the USA.

We regularly welcome visitors from around the world to our UK headquarters and showroom. Visits can include an Elstead factory tour and when requested, staff training days too.

- 915m² trade showroom
- Over 2,000 decorative interior & exterior lighting models on display
- Under an hour's drive from London
- Regular trains from London Waterloo
- Easy access from London Heathrow & London Gatwick airports

Inspired by stained glass, the Diamond collection features modern, large scale pendants with dramatic facets made of individual panes of glass in a metal frame. The Opal White glass creates a warm glow and hides the internal lamping. Soft light shines out the bottom of the open pendants. The custom canopy features a raised, faceted design detail to continue the motif.

FE/ZARA4

The striking Zara collection is contemporary design with classical curves, creating a truly beautiful range. The mosaic like square metal pieces are individually hand welded together and curved in two directions creating a unique fitting every time. With the addition of the almost translucent Silver Organza shades these Brushed Nickel fittings are completed by the addition of frosted glass diffusers.

Theater Row pays homage to Thomas Edison with a vintage industrial bulb that is not only nostalgic but also very attractive. It is a perfect circle but tooled in an elegant way unlike any other item on the market. Alongside the exposed bulbs there is a central spotlight on the ceiling fittings. Available in two finishes; Imperial Silver and Western Bronze, Theater Row brings old New York elegance to lighting.

FE/MALIA8

The stunning Malia collection shimmers with reflection and movement thanks to the Polished Nickel finish and plated smoked crystal glass droplets. Made in classic shapes, yet contemporary in its look, these beautiful fittings simply come alive when illuminated and will look equally at home in both traditional and modern settings.

The beautiful Lucia collection, with its array of sunflower shape Bauhinia crystals placed delicately in a Burnished Silver metal frame, comes alight with life and movement once illuminated. This transitional collection is as versatile as it is stunning, with multiple length drop rods supplied with each fitting allowing for the fittings to be positioned ideally for their setting. All of the fittings include linen shades and elegantly finished glass bottom diffusers to give a luxurious yet soft feel when installed.

One of our designers was inspired when he spotted an old gas lantern outside a century old home. The result is the outdoors-in style of the Ryegate collection. Position one over a table or blend several over a kitchen island for an updated effect. Available in Antique Copper or Pewter for a vintage feel.

Inspired by a bride's wedding jewellery and veil, the romantic, delicate details of the Aveline Collection bring a special element to a traditional silhouette. There are three sweeping chains draped from arm to arm with alternating crystals and ghost pearls. The shades are made of luxurious organza with a touch of grey trim for a tailored finish.

A modern take on 1970s fixtures, the Holloway collection of pendants is rich with design detail. The matte, textured shade contrasts beautifully with the spun metal profile and matching metal trim. The white, opal etched glass has a contemporary silhouette to soften the light while still allowing direct down light through the centre. The canopy is painted to match the shade.

A classic hanging pendant, Stewart is simple lighting done right. The clear glass bowl maximises light output and is available in two finishes, Brushed Nickel and Western Bronze. The sleek Wilkinson flush mount adds a contemporary/retro accent to your home. The simple, double ring pan frames the opal etched glass, which diffuses the light evenly. It brings a chic, designer touch to rooms with standard ceiling heights.

The Beso family is a retro series of 1970's style pendants made from spun steel, painted white internally for good light output properties, and ideally used for bars and restaurants, kitchens and serveries that need a contemporary look. The fittings are supplied with ample cable enabling them to be located in both high and low ceiling situations.

Harking back to period-inspired, warehouse lighting, the Cadence collection is a contemporary update to historic industrial fixtures. The riveted centre band, as well as the vented top and square-linked chain on the pendants add rich, visual interest yet don't distract from the clean lines of the overall silhouette.

Amelia's classic pendant design reinvents vintage details with a cast glass fitter, cast metal trim ring and prominent hinges and clasps. The etched opal glass dome has an etched prismatic bottom lens for classic retro inspiration, while the full metal body versions have a more vintage appearance to them.

Pullman's mid-century modern pendant collection is influenced by a dramatic theatre stage light design combined with a dash of nautical chic. A sleek white-painted interior reflector maximises its downward illumination while simultaneously creating a striking contrast with the bold exterior finish.

These fittings are influenced by what were seen as functional and industrial lamps of the 1900's. Many featuring the use of Faraday style industrial lamps, they are ideal for use in restaurants, bars, kitchens and anywhere that suits a more heavy duty looking fitting. Most of the pendants come supplied with versatile drop rods or cords so that they are easily adjustable to suit most situations.

The style of the Provence is taken from French designs of the mid 1900s where they were commonly used to light tables in kitchens, cafés and bistros. Options include a rise and fall system, where the height can be easily changed in situ to suit a variety of applications. New to the collection is a single pendant, table lamp, floor lamp and wall light. The Provence is offered in Aged Brass, Old Bronze and Polished Nickel finishes.

A rustic contemporary look that gives a dramatic flair to your home, this design serves as a piece of art in itself. It features gorgeous butterscotch onyx shades that emit a romantic glow, and sweeping wrought iron metal bands that add visual interest. Onyx is a mottled quartz (natural stone) that takes a high polish. As the favourite medium for Greek and Roman sculptors and architects, onyx has become a cultural symbol of tradition and refined taste.

Inspired by the rich, rustic design of ranch ironwork, the Huntley collection is characterised as mountain luxe. The arms are cast to achieve superior quality and detail. The mouth-blown, powder ivory frit glass creates a delicate feathered detail, like a glowing candle. Supplied with two finial options – a simple disk or a drip cup detail which complements the bobèche. Finished in a dark brown, Oil Rubbed Bronze.

QUOIZEL TIFFANY

COLLECTIBLES

Louis Comfort Tiffany

The use of stained glass has been around and admired for more than a 1000 years, where it was most commonly used on cathedrals and churches. However, one of the most famous designers in this field was Louis Comfort Tiffany who also developed lighting products featuring stained and art glass at his famous New York studios.

Tiffany himself had originally trained as an artist and later learnt the craft of glassmaking while working at several glasshouses in the Brooklyn area. After perfecting some of his own techniques for stained glass by making his own opalescent glass utilising the copper foil technique, he founded Tiffany Studios in 1879. At its peak, the then famous and highly successful company employed more than 300 artisans. Tiffany original objects are still highly regarded and collected all over the world.

Tiffany by Quoizel

Today, the name Tiffany is synonymous with products featuring stained and art glass pieces, copper foiled together, and particularly light fittings that benefit the beauty that the electric light bulb does to these when lit. Quoizel provides a range of looks that capture the Tiffany spirit; from highly traditional and transitional styles to more contemporary interpretations sure to suit any modern-day décor.

Whether you are looking for deep jewel tones and intricate patterns to serve as a statement piece in your home or whether you seek a light, neutral palette that offers the beauty of stained glass as a subtle complement to your room décor, Quoizel has many Tiffany style art glass lamps and lighting fittings that will suit your needs perfectly.

The Art of making Tiffany style lamps

The skilled artisans trace out the pattern from a template then hand cut the art glass.

Each piece of glass is then ground to fit the shape of the mosaic pattern required.

Each piece of art glass is then cleaned and copper foiled.

Flux is then applied to the copper foil and each mosaic piece is put into place within the fibre glass mould.

The shade is then soldered together on the inside with lead free solder, and again on the outside to strengthen construction.

An authentic Bronze patina is applied to the solder, it is then hand waxed to protect the solder from oxidisation. It is then polished to give a lustrous finish.

Exquisite investments of today – cherished heirlooms of tomorrow

Art Glass can be more expensive than crystal glass. All Quoizel Tiffany collectibles are made of Art Glass and the shades in the Elstead collection have between 44 to 632 pieces. The average shade takes 80 hours to create by skilled artisans. Nothing adds colour to a room quite like Tiffany lighting.

Taking care of Quoizel Tiffany

Never use chemicals to clean your art glass. Use a damp cloth only to remove any excess oil. Use linseed oil on the solder to maintain the lustre after cleaning.

This Arts and Crafts style features a pyramid shade with a stepped border for added visual interest. The classic geometric design includes art glass in shades of amber, cream and tan, accented with glass pieces in sapphire blue and rich green. The linear geometric details on the base makes it a perfect complement to the shade.

BATHROOM COLLECTION

This stylish range of products have been specifically designed for use in the bathroom environment, although they can of course be used elsewhere within the home. Offering a choice of both classic and contemporary styles, these fittings will add style and elegance to any bathroom setting. All of these products are IP44 rated, which is the water ingress rating required in many countries for bathroom lighting, making them suitable for Zones 1 and 2. Bulbs are supplied with all fittings listed with G9 lamps. Not supplied with pull chord.

The Wadsworth wall lights are influenced by the Art Deco era. Their three-tiered step design, on the prominent fitters and opal-etched glass reflect the inspiration of a mosaic pattern. The Malibu wall and flush are suitable for interiors classic to modern. They feature crisp opal-etched glass drum shades supported by a stepped frame. The frame's shiny Polished Chrome finish accentuates the stepped details.

B

Handmade in
Solid Brass

All of the products shown using the B symbol signify they are manufactured in solid brass material. These classically designed products are manufactured to the highest standards and will give many years of service due to the quality of the materials used. Featuring a variety of styles and glass designs, these fittings are available in a mix of Polished Chrome, Polished Nickel, Polished Brass and Burnished Brass finishes (see table for finish details). All of the fittings are supplied to IP44 specification, and where G9 lamps are used, the fittings come supplied with lamps.

POLISHED CHROME
Austen1 PC - page 366

POLISHED NICKEL
Austen1 PN

Polished Chrome is the traditional finish for a bathroom. It has a more blue tone to the finish, but will not tarnish and doesn't require polishing as frequently as the Polished Nickel finish.

The Polished Nickel finish has softer tones, but will tarnish in a moist environment and will require polishing from time to time.

Isabella's elegant details create a classical flair with flourishing decorative cast detailing and scalloped marbled etched amber glass. Francoise offers stylish elegance with decorative cast detailing and frosted ribbed glass, which add to its classical appeal. Both models are handmade in solid brass and finished in Burnished Brass.

PORTABLES & HOME DÉCOR

VINTAGE CLASSICS

p376-382

A great range of classic desk lamps and floor lamps to fit with vintage period interiors. Many are using LED lamp sources to provide stronger task light (see the Vivid Collection by Quoizel).

ENGLISH IRON

p418-422

Most of these designs are from Elstead Lighting's own collection and many are still manufactured in the UK factory using traditional methods such as forging and other craft skills as well as hand painted finishes.

LAMPSHADES

p449

Separate cotton lampshades with traditional box pleat or fine pleat designs, available from 12" to 20" diameter. Plus 5 options of clip-shades to add that classic look to chandeliers and wall lights.

STIFFEL LAMPS

p383-390

Zinc cast models from the 1920's to 1950's period, every Stiffel lamp is an original, created by talented designers and skilled craftsmen in the USA. Many lamps are large scale.

REACTIVE GLAZED CERAMICS

p423-438

A selection of modern, classic and contemporary styles using fine quality European made ceramics that all feature interesting reactive glazes. Many are of a large scale ideal for hospitality/residential statement pieces.

QUOIZEL TIFFANY COLLECTIBLES

p450-457

Timeless Tiffany style lamps on Bronze Patina bases, adding colour and hand crafted art into your interior design. A great variety of geometric and classic flower shades with up to 600 pieces of colourful art glass.

AMERICAN TRADITIONAL

p391-406

Original designs by Feiss and Quoizel, who are renowned for their detailed classic products and transitional styles. Manufactured using wood, glass, metal, stone and resin with hand painted and plated finishes.

TRADITIONAL CHINESE PORCELAIN

p439-447

This collection is made from Chinese porcelain which is a finer quality of clay that allows the product to be fired at a higher temperature to provide stronger colours and fine details found on the classic blue and whites.

MIRRORS

p458-461

Our small selection of elegant, decorative mirrors are designed to coordinate with our lighting to finish your room in a warm and inviting fashion and in a variety of styles to complement any home or hospitality location.

RETRO

p407-417

Original Retro designs influenced by the 1950-70s era featuring ceramics, glass, metal and wood materials. Lamp shades are hand made in fine materials using bold retro colours such as orange, marine and lime.

OPTICAL GLASS

p448

Classic designs using hand cut and polished, quality K9 Optical glass which has 12% lead content giving it a substantial weight and shiny finish. Mix and match shades to provide a traditional or contemporary look.

FLAMBEAU

p462-490

Combining art and design with intriguing function, the designers at Flambeau have created a unique and stunning collection of luminaires. Most fittings feature classically distressed gold and silver leafing.

**SPENCER
FLOOR LAMP**

Stiffel®

Stiffel lamps are proudly made in the USA. Every Stiffel lamp is an original, created by talented designers and skilled artisans. To truly appreciate the beauty of a Stiffel lamp, you must take in each detail and consider the hours of expert craftsmanship that created it: the design, the carving, the finish.

The Stiffel Lamp Company was founded in 1932, in Chicago, Illinois by Ted Stiffel. A talented craftsman, Ted Stiffel had a background in fine arts that gave him a unique ability to design innovative and intelligently crafted lamps. Stiffel's dedication to excellence established the company as the industry leader in quality.

Today that tradition continues with caring and enthusiastic employees, all of whom work towards one common and rare goal – excellence. Proudly all of their products are still made in America, at their 40,000 square foot facility in Linden, New Jersey.

FLAMBEAU

Lighting...New Orleans Style

Combining art and design with intriguing function, the designers at Flambeau have created a stunning collection of luminaires.

Flambeau showcases the works of renowned New Orleans designers Paul Grüer and Elaine Gleason, as well as Baton Rouge sculptor, Benjamin Burts. Each designer and artist has united sophisticated forms and shapes with distressed finishes of gold and silver patinas to create 21st Century antiques.

With meticulous attention-to-detail and quality manufacturing, Flambeau's lamps, chandeliers, pendants, and sconces will add a touch of intrigue and whimsy to any room. Often Flambeau Lighting's designs become the conversation piece in the most distinctive interior environments.

Paul Grüer

"I have always been influenced by the city of New Orleans. The patina of age and gentle decay has found its way into the finish of my work. Like the city, sophisticated, fun and always just a little off-center".

Whether as an art gallery director, sculptor, or designer of fine jewellery, this long-time resident of the "Big-Easy" and his work, have for years been an integral part of the New Orleans art scene. Chosen as the top artist in New Orleans and recipient of the WYES Patron Artist Award, Grüer has also been nationally recognised winning Alpha Awards for his textile and lighting designs.

Grüer's use of lighting as an expression of his creativity first came about when a friend challenged him to create a chandelier to look like a pair of earrings he had designed for her. Pleased with the results, he soon began creating other sculptural lighting pieces inspired by his jewellery designs, and for years, these one-of-a-kind custom pieces were commissioned and sold only through a hand full of select art galleries and interior designers. In 2001, Grüer entered into a licensing agreement with Flambeau Lighting to create an ongoing series that would be crafted and finished by artisans, in much the same manner as his original Studio pieces.

Today, Paul Grüer's "FLAMBEAU Lighting Collection" is a gallery of sculptural, functional art that manifests itself in the form of table lamps, floor lamps, chandeliers, pendants, mirrors and sconces. He has created a collection that is certain to add intrigue to any interior design.

Elaine Gleason

Elaine Gleason designs and constructs striking lighting fixtures for both residential and commercial interiors. These sculptures are inspired by the rhythm and ambiance of her native New Orleans.

For 10-years Gleason has focused on the design and manufacture of metal furniture and lighting at her New Orleans studio. Her designs are evocative of the culture she lives in; the classic architecture, the indigenous music, and lush foliage that saturates New Orleans.

Gleason's art has been shown at the New Orleans Jazz Fest, Art in Bloom at the New Orleans Museum of Art, D.O.C.S. Gallery, New Orleans Academy of Fine Art, Philadelphia Rosen Show, as well as at the International Atlanta Gift Show, New York International Gift Show and the High Point Furniture Market.

She studied art at the University of Arizona, and received here BFA degree, with a focus on Sculpture, from the University of Georgia.

Benjamin Burts

There is a life force palpable in every Benjamin Burts creation. From a genesis of cold clay evolve works of art that exude an almost human warmth and texture. Burts says he doesn't put it there; he says it is there.

"I work with clay in a very free, spontaneous way, allowing it to become what it wants to become. I start with an idea, but the idea only motivates me to begin. Then it becomes a collaboration between the clay and me to see what it is supposed to be," says Burts.

Faces and spiritual forms rise ethereally to the surface in many of his designs and through a unique surfacing technique after kiln firing, he applies gold and silver colouring, "colours natural to the surface, shape and form," remarks Burts.

His work has been exhibited in fine galleries across the USA. He is inspired by neoclassic design blended with the culture of the New Orleans Garden district.

Maiden Voyage

FB/MAIDEN VOY6

Six-arm chandelier adorned with crystals and silver shades.

Height: 902mm

Gold-leaf table lamp features moulded silhouettes of a torso, cross and face cast from original pieces of ancient stonework fragments.

Height: 1016mm
Width: 229mm
Depth: 229mm
Max. Wattage: 1 x E27 60W
© 2001 Paul Grüer

“One of my favourite things to do is search the French Market in the Quarter to find unique treasures, fragments from the past. Some of these treasures have found a home in the ‘Fragment’ Collection.

A touch of the old worked into new designs that bring a bit of history and New Orleans charm to any interior design. ”

– Paul Grüer

Fragment Silver Floor Lamp

FB/FRAGMENT/FL-S

Silver leaf with umber glaze sets off a drum shade, stepped base and stem studded silhouettes of a torso, cross and face cast from original pieces of ancient stonework fragments.

OUTDOOR LIGHTING

DESIGNER TRADITIONAL

p494-543

Many of these traditional lanterns have lavish curves and design details that replicate the craftsmanship of days gone by. There is a great variety of glass used and lots of interesting patinas that provide highlights on the lantern shapes. There are several ranges that include large and extra-large lanterns for grand homes and hotel projects.

SOLID BRASS LANTERNS

p544-560

This is a great collection of English and American Heritage lanterns that are hand made from solid brass. This material is ideal for coastal and tough climate conditions and is offered with a limited lifetime warranty from corrosion. Whilst the colour may change over time into a rich, natural patina, the material itself will not deteriorate.

COASTAL COLLECTION

p561-566

This collection is designed specifically to withstand extreme weather and saline conditions. The Polymer products are UV and impact resistant and come with a 20 year guarantee. In addition the Poole and Sandbanks products are made of Marine Grade Stainless Steel and Malaysian Teak.

RUSTIC

p567-573

The Wrought Iron collection are rust protected, hand finished and are ideal for a rustic, country cottage look. In addition the Lumiere, Pettiford and Chelsea Harbor collections are great for a rustic industrial or coastal themed exterior.

TRADITIONAL

p574-605

A large collection of traditional black lanterns some of which are the original English country cottage lanterns designed in the 1960s and 1970s. This collection also includes the Heritage Range and the traditional Scandinavian Collection.

LANDSCAPE

p606-627

The Garden Zone landscape series by Elstead offers two LED ranges in 12V, including spotlights, spikes, flood lights and in-ground fittings. The professional collection has CREE LEDs, is made of high quality materials such as solid brass and anodised aluminium, and allows a large number of fittings to be connected together over a distance of 80m.

A traditional outdoor option, the Venetian Rain collection draws upon the rich legacy of the Renaissance. Ornate decoration and lavish curves reflect the history of fine Italian craftsmanship. Showcased with a Brushed Bronze finish, this design will create depth and drama in any space.

Every home can use a little extra curb appeal - that's where this ornate lantern collection comes in. Gold lustre tinted glass and a warm Walnut finish enhance the intricate detailing beautifully. Each piece has a curvaceous form and perfect silhouette so it looks as dazzling in the daytime as it will when lit at night.

Castle windows throughout Europe were designed with a wide variety of tracery, mullions and stonework elements. The Olde Bronze panels of the Franceasi lighting family were created with these wonderful windows in mind. The intricate details create delightful shadow patterns on adjoining wall surfaces and walkways, and include soft amber tinted glass panels.

Made of Solid Brass, Bingham's traditional style recalls a turn-of-the-century gas light reproduction. The vintage look is nautical in nature and recognises Hinkley's origins on the shores of Lake Erie. The brass construction features clear seeded glass and a Sienna finish, while candelabra lamping completes the authentic style.

These elegant reproduction Georgian outdoor lanterns are manufactured entirely by hand from fine solid brass material. Designed to emulate the lanterns seen around London in the early 1900s, the Holborn models are produced in 2 sizes and are available in a choice of Polished Chrome and Dark Bronze finishes.

These period solid brass lantern designs have been taken from originals dating back to pre-Georgian Britain and will add style and class to town and country homes alike. They are hand crafted and have an Antique Brass finish which is then waxed for durability. Models are all IP44 rated. Certain models are available in a Polished Nickel, Verdigris or Polished Copper finish.

Influenced by simple barn lamps of the early 1900's, the classic Somerton lantern is hand made in solid brass and finished with beeswax in the traditional way. This will allow the colour of the fittings to naturally patina further into a rich aged colour giving a true period look and is available with or without the vintage glass guard cage.

The Polymer Coastal Collection is designed specifically to withstand extreme weather and saline conditions. The Polymer body and polycarbonate diffusers are U.V. and impact resistant, and corrosion proof. The products are manufactured to IP44 rating. The twist and lock system allows multiple options on how the fitting is assembled e.g. the lantern bracket can be placed below or above the lamp housing to best suit your situation. All products have 20 year guarantee against rust, U.V. colour and city pollution.

Using the finest material available to us, this premier quality collection is a range of lifestyle exterior fittings individually designed to enhance their surroundings, wherever they are installed. The stainless steel used in the products is Marine Grade 316 (as used on ships) and is designed to withstand the most challenging of conditions. The teak used is genuine quality wood from Malaysia and if oiled seasonally will keep its natural appearance for many years. We recommend that you use a small diameter Compact Florescent Lamp (CFL) or similar LED lamps in these fittings.

Based on French countryside influences and a hand-crafted, artisan aesthetic, the Lumière collection is rich in texture and celebrates a classic lantern silhouette. Cross-hatched, Natural Oak wood (kiln-dried to avoid cracking and weather well over time) is coupled with seeded glass to complete the look.

The Pettiford collection is finished in Olde Bronze and features clear vertical rain glass panels. The metal mesh detail at the top and bottom of the lantern brings a vintage industrial twist to this traditional range. The wall lanterns have the additional detail of a reflector circle to push out extra light.

These traditional, industrial coastal looking fittings are made to look like the work lanterns seen harbourside in the 1940's and 1950's. Hand made from aluminium material and painted in a Storm Cloud grey finish, these attractive lanterns feature a mouth blown bubbled glass to add to their authentic look.

FE/CHELSEAHBR8	Chain Lantern	520mm	146mm	590mm	2114mm	-	Storm Cloud	1 x 100W E27	IP23

A truly medieval style lantern range hand-made in heavy wrought iron. Each piece is individually hand finished in a unique Old Bronze finish (except Polruan which is finished in Black) and all fitting are hot zinc dipped prior to painting to give rust protection which is guaranteed for two years. In line with tradition, five of the models feature hinged front doors for access to lamp changing.

Thomas Edison in his workshop

Pioneered by engineering greats such as British inventor Joseph Swan in the mid-1800's and later developed commercially by the American inventor Thomas Edison, what is often referred to today as the Carbon Filament lamp was developed. In their day these lamps were seen as purely functional, but today the vintage look of the filament has timeless appeal and is used extensively in much of the photography within our collection.

In some countries these lamps have to be sold for Industrial Use Only and not for household use.

SCANDINAVIAN COLLECTION

The Elstead Scandinavian Collection is a mix of contemporary lantern designs that have great durability against bad weather as their key strength. Manufactured from 304 grade Stainless Steel, and then further painted in a metallic silver or matt black finish as shown, these robust fittings are guaranteed for 15 years against structural failure, aiming to give many years reliable service.

LANDSCAPE LIGHTING

COLLECT & CONNECT

The Garden Zone Collect & Connect system is incredibly simple and safe to use, allowing up to 12 fittings to be connected together over a distance of 30m. With a comprehensive selection of fittings, you will find the ideal solution for any landscaping requirement. These fittings are guaranteed for 5 years against structural failure and the LED modules are guaranteed for 2 years.

The bright way to light up your garden!

The Garden Zone Collect & Connect low voltage, energy saving lighting system is a great way to add style to any garden landscape. The system uses high power LED lights offering excellent light output with exceptionally low energy consumption. A wide selection of stylish light fittings including ambient, spot and deck lighting options are available. In such case, a Starter Kit can be purchased with the option of adding additional fittings if required.

N.B. GZ Connect & Collect cannot be mixed with GZ Professional Range.

6M CABLE

Starter kit includes:
3 x 12V Ambient lights, 3 x Spikes

Product Code: GZCC/AMBLE 3S

Material/colour: Anodised Aluminium

Dimensions: H: 73mm W: 30mm

Spike: 350mm

Light Source: 3 x 6 * 0.1W LED

IP Rating: IP54

Garden Zone

PROFESSIONAL COLLECTION

LANDSCAPE AND GARDEN LIGHTING

The Garden Zone Professional Collection offers a versatile selection of high quality, easy to install and energy efficient products for all parts of the garden landscape, designed for use by professional gardeners, landscapers and architects.

Using our excellent low voltage plug & go system allows a large number of fittings from the Garden Zone ranges to be connected together over a distance of up to 80 metres. Furthermore, all the fittings within the plug & go series use high power LED light sources, which have very good light output properties alongside exceptionally low energy consumption. Added to this we offer a complementary range of 240V energy efficient models in matching designs as well as range accessories to ensure the widest possible choice.

PLUG & GO: HOW IT WORKS

Step 1: Choose the areas you want to have lit, then we suggest that you sketch a rough plan view of each area involved.

Step 2: Choose the fittings which will suit the requirements and list them out with the quantity of each where relevant. Be careful to bear in mind the voltage of the fittings chosen. All 240V fittings will need mains supply to wherever they are to be installed whereas all plug & go models just need to be connected into the low voltage cable (as shown right).

Step 3: Measure the distance involved for the plug & go models chosen and determine, from the cable set options available which cable set or sets will be needed. Remember, up to 80 metres of cable can be used from 1 LED driver but the wattage loading must not exceed the recommended minimum, maximum (see accessories page 611).

Step 4: Plan where the mains supply will originate from. With the plug & go system you have a choice of placing the LED driver/drivers in an IP rated wall box on an exterior wall. However, depending on how large an area is involved, sometimes more than one mains feed may be needed in different locations. Consultation with an electrician is advisable on this matter.

Important

The Garden Zone Plug & go fittings use a unique single pin, 2 pole plug and as such are not compatible with any other product or system. Currently they are not dimmable but they will work when wired via a timer.

GZ/Cable set-20M

20 metre single plug extension cable

Guarantee / Life Expectancy

All Garden Zone fittings are guaranteed against structural failure for 5 years and 2 years for the LED units. The LED lamps have a minimum life expectancy at 80% plus efficiency for 20,000 hours. Typically if on 4 hours per day, 365 days per year, than this equates to around 14 years of life. The 2 year Guarantee is only valid when exclusively using Garden Zone cables, fittings and drivers.

Repair Service

Outside of the 2 year Guarantee we offer a chargeable full maintenance and repair service to fittings. This is conducted in our own workshops and the service includes replacement material parts and wiring repairs.

GZ/Driver 11W

11W (min. load 3W, max. load 11W)
140mm long x 25mm wide
IP66

GZ/Driver 28W

28W (min. load 9W, max. load 28W)
200mm long x 30mm wide
IP66

Drivers are supplied with 30cm of cable.
Each fitting is supplied with 1.5m of cable.

IMPORTANT:

All fittings should be plugged in prior to switching power on.

GZ/Cable set-6M

cable set for plug & go fittings 6 metres long with 5 plugs spaced 1 metre apart for up to 5 fittings

GZ/Cable set-10M

cable set for plug & go fittings 10 metres long with 9 plugs spaced 1 metre apart for up to 9 fittings

GZ/Cable set-16M

cable set for plug & go fittings 16 metres long with 15 plugs spaced 1 metre apart for up to 15 fittings

The stylish and versatile Elite family is beautifully manufactured from either marine grade aluminium, which is then polished and anodised, or from solid natural brass. Designed and hand engineered to the highest standards, the Elite range offers both 240V mains fed and 12V LED plug & go options including wall up/down fittings, multi directional wall or ground spotlights and an optional height pole/spike fitting. This pole fitting allows a choice from 250mm up to a maximum of 750mm in height to take either the Elite5 or Elite6 fittings.

Additionally, to add further to this versatile range, the fittings can easily have their lenses changed from the standard clear version to blue, green, red or amber. By simply unscrewing the lens cap, the lenses can be easily removed and changed to give different coloured effects to their surroundings.

*Natural brass is untreated and its finish will age over time.

Optional coloured lenses for Elite fittings (Medium only, not suitable for Elite S & L models.)

GZ/OPTICA4

GZ/OPTICA3

Cutout hole
for Optica3
Ø = 74mm

Our stunning looking Optica range is beautifully engineered from marine grade aluminium, which is then polished and anodised. All of the models feature an optical glass lens, which has an equally stylish look when either lit or unlit. The Optica1 and Optica2 are 240V mains fed products while the other models are 12V plug & go LED fittings, with Optica3 suitable for use indoors and out under soffits and porchways, in low positions along walls, in decking (non trip areas) and in soft ground around flower beds.

Our Fusion range is designed for use in decking, soft ground, pathways and walkways to provide a variety of low-level light direction options. Manufactured from either machined stainless steel (304 grade) or natural brass, all fittings (except Fusion11) also feature machined aluminium bodies and use 3W of high power LEDs as their light source. All of the range are supplied as 12V plug & go fittings making them quick and easy to install. The choice of model is then dependent on which direction of light is required; upwards, sideways, to all directions or just to a particular direction. The choice is yours. All fusion models come supplied with plastic underground casing, particularly useful when being concreted/tarmacked in place. Models Fusion1 to Fusion10 are safe to drive over up to a maximum load 2500kg.

*Natural Brass is untreated and its finish will age over time.

It is not often that one can find products made to original styles and to original quality levels like in the old days. Our Bronze family is our premium range of products that we believe achieves this. They are manufactured from heavy cast bronze (except models Bronze9 and Bronze20 which are produced from solid natural copper)* and chemically treated to give a natural looking Aged Bronze or Verdigris finish.** Offering a wide range of garden spots, mini floods, wall and step lights, directional in ground, eyelids, pagoda lights and recessed fittings the Bronze collection has a large number of options and accessory choices to enhance the finest of gardens. All of these classic designs are supplied with our 12V plug & go system using high power LED's making them energy efficient, yet easy to use and install.

*Copper fittings use some brass components and all materials are without laquer to enable them to age naturally.

**Please note that depth and style of finishes can vary as this is a hand applied treatment.

GZ/BETA6	aluminium 4-ring bollard	370mm	110mm	3 x 1W high power LED	12V	IP54	aged iron

GENERAL FITTINGS

- 1. FINISHES.** Many of the finishes used on these ranges are hand applied (patinated) and some small variations and irregularities in the finish are to be expected. This is part of the process of manufacture and, far from being a problem, it is an important part of the nature of hand made and hand finished items.
- 2. LAMP-HOLDER TYPES.** Most fittings are constructed with either E14 lamp-holders (small Edison screw, sometimes referred to as SES or with E27 lamp-holders (standard Edison screw, sometimes referred to as ES. Appropriate E14 and E27 lamps are widely available in a range of styles, wattages and light sources including incandescent, compact fluorescent and LED. Some of these lamp-holders are now supplied with threaded skirts, together with candle tubes and shade rings. This means that these products can be used either as a fitting with candle tubes and candle lamps, or with glass using the shade ring. Additionally we make certain fittings which use G9 and GX53 lamps. Lamps are usually supplied with these fittings.
- 3. WATTAGES.** Most fittings shown in the catalogue are shown with Maximum Wattage recommendations. These recommendations are calculated mainly by heat capability, as there is a correlation between heat and wattage. However, in many countries traditional incandescent lamps, such as 100W GLS are no longer available. There are now many new versions of lamps in the market, lower wattage but similar light performance such as halogen replacement, compact fluorescent and LED. Most fittings wattage capacity and certification has been based on the criteria using an Incandescent lamp and so when choosing lamps, please take care to ensure that wattages specified are of no more than the equivalent original incandescent lamps. In the case of LED, the wattages are far lower, but some of these can still run very hot, not dissimilar to incandescent of much higher power.
- 4. OPTIONAL FITTING GLASS & CLIP SHADES.** As partly detailed in paragraph 2, many of the ranges shown in this catalogue are featured with "optional glass" or "optional shades". Where this is referred to, and glass or shades are preferred, please order the glass or shade reference and quantity separately.
- 5. FLUSH CONVERT/DUAL MOUNT.** Many of the interior ranges have also been constructed with the ability for the fitting to be easily modified from being a chain fitting into a semi-flush fitting. Note that once converted to semi-flush it is not then possible to easily convert back to a chain fitting, as some re-wiring is likely to be required.
- 6. CUSTOMISATION.** Some of our ranges supplied in matt black can be relatively easily patinated into finishes such as Black/Gold, Black/Copper etc. Equally, for chain suspended fittings that need extra chain and cable, these can also be relatively easily undertaken. Both such modifications may incur longer lead times and will have small additional costs added to the price. (See current Elstead Terms and Conditions.) Beyond this, with appropriate lead time and client budget, more specialised changes can be undertaken such as different colours completely, changes to dimensions and design modifications and even fully bespoke fittings can be considered due to our varied manufacturing resources available.

EXTERIOR FITTINGS

- 1. INSTALLATION CARE AND MAINTENANCE.** When installing all outdoor lights it is recommended to lightly grease all threaded parts and screws / nuts to ensure that fittings can easily be disassembled for cleaning or lamp replacement. When handling certain fittings / finishes such as polished copper they can easily finger mark, so it is recommended that bare hands on these surfaces is kept to a minimum. Please retain receipt and installation instructions for future reference.
- 2. FINISH MAINTENANCE.** Many of our fittings are supplied in a natural finish, i.e. Polished Copper un-lacquered and Teak wood. These fittings can naturally age over time or to maintain their original appearance, treatment is needed, such as oil for teak, beeswax for brass and light oil for Copper and Stainless Steel. When handling finishes during maintenance, small marks may show which can be easily polished away if required. The alternative is to allow the material to age and weather naturally, which does no harm to the fitting. Additionally, when installing cast aluminium fittings, a light coating of beeswax or oil can give the finish extended life, especially when in coastal areas.
- 3. IP RATINGS.** All exterior fittings have an IP (Ingress Protection) rating which is a declaration of how much protection any product has against the ingress of both water and dust / particles. The minimum rating for an outdoor luminaire exposed to rain should be IP23 and the maximum can be up to IP68 (this can vary in different countries) which means the fitting is submersible. Most of our fittings are IP44 or greater and some of the Garden Zone models are up to IP67 meaning they can be covered by water up to a depth of 150mm, such as in-ground lights. See table on the opposite page for full classifications. Typically, the higher the numbers, the higher the performance.

PRODUCT WARRANTIES/GUARANTEES

GENERAL 2 YEAR GUARANTEE. All fittings supplied from this catalogue, both interior and exterior, have a manufacturer's minimum guarantee of 2 years. This means that in normal and fair service, (and without incorrect or inappropriate installation or location), any product sold by Elstead Lighting or its partners should have no fault develop within a minimum of 2 years from purchase. Any fault that is found is covered by guarantee to be repaired or replaced at the suppliers cost, within this period.

ALL Elstead warranties/guarantees do not cover out of pocket expenses or consequential costs.

LIMITED LIFETIME WARRANTY – This warranty relates to certain ranges/models shown in this catalogue which are produced of materials that have an exceptionally long life expectation, such as solid brass lanterns. These fittings may age over time, but will not deteriorate to an extent where they will no longer function for the purpose intended. The "Limited" element relates to component parts such as rubber seals, lamp-holders etc. which are repairable but are not covered by the Lifetime warranty.

3, 5, and 10 year Anti-corrosion guarantees. Many outdoor fittings have anti-corrosion guarantees stated on each relevant page. This guarantee relates to the corrosion of paintwork on cast aluminium or steel fittings, and excludes locations within 5 miles of the coastline. Fittings that have been damaged, repainted or cleaned with an aggressive cleaner may be excluded.

Prior to agreeing to replace any fittings, the company reserves the right for the original seller or a representative of the company to inspect the damaged parts and for photographic evidence to be supplied.

COASTAL COLLECTION 20 YEAR GUARANTEE. These fittings are designed to be placed in the toughest of conditions including right by the coastline without exclusion. This guarantee covers protection of the finish against corrosion or UV degradation.

LED Module and PIR Sensor guarantees. Within this catalogue there are a number of products incorporating PIR sensors or LED modules. Whilst the fittings themselves may have varying physical guarantees against corrosion, these electronic parts are covered by a 2 year guarantee against failure. After this period, they are still repairable and serviceable, either by the company or local supplier.

COMPLIANCE/APPROVALS

All products within this catalogue conform with the European Union Low Voltage Directive, BS EN 60598-1:2008, the product standard for luminaires recognised across Europe and all fittings are CE marked. Every luminaire is individually tested by Elstead Lighting to ensure that the product is electrically sound and meets the company's quality standards. A unique test / batch number is then applied to the fitting. Elstead Lighting products also have compliance in other countries around the world such as Saudi Arabia, Russia and Ukraine. Please contact us for further details or advise us of your local needs.

We are manufacturing members of the UK Lighting Industry Association and conform to all aspects of the Lighting Industry Association Code of Practice for luminaire production, for which we are annually inspected.

IP RATINGS

1st Digit	Short Description (Protection against ingress of solid bodies)	2nd Digit	Short Description (Protection against ingress of moisture)
0	Non-Protected	0	Non-protected
1	Protected against solid objects greater than 50mm dia.	1	Protected against dripping water falling vertically greater than 50mm diameter
2	Protected against solid objects greater than 12mm dia.	2	Protected against dripping water when the Luminaire is tilted up to 15° from its normal position
3	Protected against solid objects greater than 2.5mm dia.	3	Protected against spraying water falling on the Luminaire at any angle up to 60° from the vertical
4	Protected against solid objects greater than 1mm dia.	4	Protected against splashing water from any angle
5	Dust-protected	5	Protected against water jets from any direction
6	Dust-tight	6	Protected against powerful water jets
		7	Protected against immersion in water under defined conditions
		8	Protected against continuous submersion under manufacturers specified conditions

Example IP65 Dust-tight and protected against water jets from any direction.
